## Farmers Putting Old Machines Back to Work

Everybody would like to see all farmers have a combine and all sorts of modern equipment, so that his work would be reduced. But the trouble is that there is only so much overhead which any business can carry, says The Market Examiner.

Machinery and tractor companies by high pressure sales methods have loaded up western Canadian farms with surplus equipment. Much of it is now idle—and a lot of it unpaid for—because the farmers cannot afford to use equipment put in use in the days when luxuries could be afforded in that line.

The implement companies are just as badly off as the farmers—they kept loading up the farmers with machinery. To provide this machinery they increased their plants and staffs. It all helped to make Canada "prosperous"!

But today there are no investments which are lower in comparative price than implement companies.

The implement firms are bigger suckers than the farmers—the latter didn't know they were being "kidded"; but the implement companies and tractor firms were such big suckers that they kidded themselves.

In referring to the implement industry, which it says affords no business prospects for this year, The Financial Post says:

Prospects for fall sales of implements are extremely small. Outside of the inability of farmers to buy is the fact that crops are not heavy enough, except in isolated districts, to make purchases of new machinery desirable. Many tractors are not operating, which gives a new lease of life to old horse-drawn implements which might otherwise have been abandoned. Where crops are good, the efforts of farmers with any spare cash is more likely to be devoted to increasing livestock operations than to expanding investments in machinery. Collection prospects are very slim. Areas with the most machinery will have no money at all. Where money is available, living expenses for the family will be the first consideration, then bank loans, taxes and mortgage interest. Out of seventy or eighty millions which the farmers may realize for their cash crops it is improbable that the machinery companies will receive more than a million.

## UNITED GRAIN GROWERS LTD

A dividend at the rate of five per cent has been declared on the paid up capital stock of United Grain Growers Limited, for the financial year ending July 31st, 1931.

Cheques will be mailed on September 15th, 1931, to shareholders of record at the close of business July 31st.

By order of the Board of Directors.

R. S. LAW, President.

Winnipeg, Manitoba,  
September 10th, 1931.

## Mix-up on the Baseline.

Quite an exciting and interesting mix-up occurred on the Highway on Wednesday evening. Reeve Kreye, of Inga, was motoring home from Edmonton, to where he had been on a business trip, and had had the misfortune to have a collision with another motorist, while nearing Stony Plain. Mr Kreye's car had its front axle bent, and the car headed for the ditch as a result.

The owner of the colliding car, an Edmontonian, phoned back to a City garage, for them to come out and get his car and tow it home. In the meantime an enterprising garageman from Stony Plain came along and offered to take this car to the City, and his offer was accepted. When the City wreckers arrived on the scene there was but one car there, and they hauled it to the City.

What was Mr Kreye's surprise, when he went out, a few hours after to retrieve his auto, to discover that it had disappeared. On learning of its whereabouts, and how it had come to be removed, Mr Kreye asked the wreckers to kindly return it to where they had found it.

## Sunday's Rally by Walther Leaguers.

The St. Matthew Walther League held a Rally at the River Sunday last.

About 75 people were present, which all partook of the chicken dinner which was served.

After dinner the crowd gathered on the Ferry and sang Walther league songs as we crossed the river. We hiked along the River banks and played a few games. Then we regressed, and the rest of the afternoon was spent in amusements.

At 5:30 p.m. the young men gathered wood for the big bonfire. At 6 the Weenies & Buns appeared, and were eagerly devoured by the hungry crowd.

We closed the day by singing songs.

Walther League.

## As Done in Other M.D.'s.

The danger of having stock stray on the Highway was exemplified one evening last week, when a City autoist returning home bumped into a herd of horses, on the Baseline, east of town, injuring one so seriously that it had to be shot.

In Black Mud Municipality Albert Dargatz is patrolman in Div. 2 "for the enforcement of the Bylaw prohibiting horses and cattle from running at large in the Municipality," according to an article in the Levee Representative.

### The World's Grain Show

"Canada, 1930," a booklet published by the Dominion Bureau of Statistics at Ottawa, summarizes the value of production in Canada for 1927 as follows: Agriculture, 38.1 per cent; forestry, 8.7; fisheries, 1.3; trapping, 0.4; mining, 6.3; electric power, 2.7; construction, 8.2; custom and repair, 1.9; manufactures, 33.1 per cent.

These figures are significant. They show conclusively the paramount importance of the industry of agriculture.

This importance is accentuated by the fact that the conditions of manufacturing, which occupies second place, reflect almost immediately the conditions of agriculture. It is accentuated even to a greater degree when one comes to examine the manufacturing schedule of the same booklet. Among the twenty-five leading manufacturing industries of Canada, flour and grist mill products occupy second place; slaughtering and meat packing third; butter and cheese seventh; bread and bakery products fourteenth.

A glance at the exports schedules discloses the further fact that wheat stands at the top of the list and wheat flour second.

It seems to us needless, therefore, to make an apology for stating that any activity which promises even a surer footing for Canada's greatest industry merits the attention and support of every Canadian.

Will the World's Grain Exhibition and Conference to take place at Regina next year bear scrutiny from this point of view? Let us see.

In the first place, it is in its name implies an exhibition and a conference. Secondly, it is open for participation to all the world.

The exhibition may be conveniently divided into three parts—the competitive, the national, and the commercial exhibits.

The competitive exhibits consist of 19 kinds of field crop products, divided into 36 classes, embracing practically all kinds of grain and seed grown in the world. The total of cash prizes amounts to over \$200,000 and the individual prizes are greater than have been offered ever before, anywhere in the world, at any other exhibition of its kind.

The winning of these prizes, however, is not the real objective of the competitive exhibition. The stimulant for a better quality field product is infinitely more important. Its effect is already apparent. There is ample evidence of this. The demand for registered—better quality—seed in greater all over Canada than it has ever been. One organization reports an increase of almost 100 per cent.

The national and commercial exhibits will tax the floor space of the immense new building to the utmost. Twenty-seven countries have already spoken for space and others will follow—50 are expected. A visit to these exhibits, occupying a frontage of over a mile and a half, will be an educational feature surpassed only by a trip around the world—a trip, by the way, which most of us are unable to enjoy.

The privilege to participate, either as a competitor in any or all the prize classes, as an exhibitor in the national or the commercial section, or as a mere visitor, is open, wide open to the great wide world.

Conferences of technical and practical agriculturists from many countries will take place during every day from July 25 to August 6. The programme will provide for the discussion of every conceivable subject having to do with all phases of field crop production, from the preparation of the soil to the disposal of the product for food, fodder, shelter or clothing.

Then there are the competitions for juniors, the tours of Canada, and a dozen other features, a mere reference to which space will not permit.

This whole programme, although not complete at this time, already contains the names of over a score of the "world's best." Surely such a co-operation of brains as this will constitute an asset to agriculture the value of which no man has the temerity to estimate.

Even from a monetary point of view alone, if the final effect be to raise the value of Canada's agricultural asset of almost 2,000 millions of dollars to the extent of one hundredth of one per cent. annually, the money necessary to carry the project to success will be an exceedingly profitable business investment.

But the World's Grain Exhibition and Conference will do more than this. It will effectively advertise Canada to the rest of the world, will give her an opportunity to take stock and ascertain her standing in field crop production, will stimulate her growers in the use of better seed, will clear away any false impressions in the minds of foreign buyers, will demonstrate to her growers the kind of competition that must be met in the markets of the world, will bring to our own country valuable ideas and experiences, and, most important of all, it will take its place among the great events which have brought the nations of the world into closer communion and a little further along the bumpy and tortuous trail toward the fertile meadows of international peace.

**Saskatchewan Dairy Industry**  
Saskatchewan's dairy industry is expanding. The creamery butter production during July amounted to 2,305,316 pounds, an increase of 337,000 pounds over the output of July last year. The production for the first seven months of the year came to 14,377,871 pounds or 3,048,971 pounds more than for the similar period of 1930—a gain of 36.3 per cent.

Seventeen kinds of palms grow naturally in the United States.

## Suffered Severe, Painful Cramps In Her Stomach

Those terrible cramps in the stomach that double you up in pain and make you break out in a cold perspiration, may be stopped by a few doses of Dr. Fowler's Extract of Wild Strawberry.

Mrs. Lloyd Jones, 204 Argyle St., Halifax, N.S., writes: "I have suffered greatly from severe and painful cramps in my stomach. I tried several remedies without result. One day a friend advised me to take Dr. Fowler's Extract of Wild Strawberry, so I bought a bottle and got instant relief."

**Famous Jewel For Museum**  
The famous Canning jewel, which the Earl of Harewood sold at Sotheby's last June for \$50,000, has been presented to the Victoria and Albert Museum by "An American Friend" who desired to remain anonymous. The jewel dates from the 18th century and is traditionally supposed to have been sent by the Grand Duke of Tuscany to one of the Mogul Emperors.

Glasgow, Scotland, has to have all mail collection boxes.

### Cut In British Dole

Variety Of Unemployed Men and Women Are Affected

The 10 per cent. cut in unemployment insurance benefits in Britain, commonly called the dole, will affect a variety of unemployed men and women alike, from the age of 16 to 65. At the same time those in employment are called upon to increase their weekly payments to the "dole fund" and employers' contributions are likewise increased, under the provisions of the national economy bill.

Hitherto youths of 18 have been entitled to \$2.50 a week, rising to \$4.25, according to age. The \$4.25 is the maximum for single men.

Unemployed girls from the age of 16 are entitled to \$1.25 a week, with a rising scale for intervening ages to 21, when the allowance is \$3.75.

Additional benefits for dependents and children will not be affected by the reduction.

### SAVED IMPORTED DRESS

"After a little wearing, a lovely green voile—an imported dress—lost colour so completely that it was not wearable. A friend who had admired it asked me what I was doing with it any more. On hearing the reason she advised dyeing it and recommended Diamond Dyes. To make a long story short, it turned out beautifully. I have a lovely new dress that really cost just 15c—the price of one package of Diamond Dyes."

"I have since used Diamond Dyes for both tinting and dyeing. They do either equally well. I am not an expert dyer but I never have a failure with Diamond Dyes. They seem to be made so they always go on smoothly and evenly. They never spot, streak or run; and friends, never know the things I dye with Diamond Dyes are redyed at all!"

Mrs. R.F., Quebec.

### Will Publish In Canada

Six American Magazines Will Now Be Printed Here

Publication of six magazines in Canada has been announced by McFadden Publications, and readers of the publications, numbering 200,000 in the Dominion, will obtain them at the same price as prevail today. The company has obtained a Dominion charter.

A statement issued by the publishers says, in part: "By so doing, we not only feel that we can do our part in the promotion of the printing industry in Canada, but we also propose to promote our publications with the newspaper advertising with the knowledge we are building on a staple foundation."

The company has contracted for an advertising campaign covering every part of the Dominion.

**Don't Submit To Asthma.** If you suffer without hope of breaking the chains which bind you do not put off another day the purchase of Dr. J. D. Kellogg's Remedy. A trial will drive away all doubt as to its efficiency. The sure relief that comes will convince you more than anything that can be written. When help is so sure, why suffer? This matchless remedy is sold by dealers everywhere.

Abaestos is the only mineral that can be woven into fire-proof garments and molded into instruments impervious to flame.

Painless and perfect in their action, Miller's Worm Powders are always a safe and reliable remedy for children who show symptoms of worms. These symptoms are easily recognizable in a feverish restlessness, frequently ending in convulsions. A positive indication is that after Miller's Worm Powders have expelled the worms, the stomach and bowels are toned up to a very healthy condition.

Nevada excavations show that man was existent on the northern continent before the ice-age era.

Worms in children, if they be not attended to, cause convulsions, and often death. Mother Graves' Worm Extirpator will protect the children from these distressing affections.

**Would Be Better**  
A pipeless organ has been invented which turns electricity into music. Many persons would probably be better pleased at the invention of a device to turn some radio music so called, into useful electricity.

Onions, potatoes, and tomatoes worth \$10,000,000 were sent to England from France, and the Channel Islands last year.

### Final Stage Of Depression

Winter Will Be Hard But Better Times Are To Follow

"The coming winter is expected to be the final stage of the three years of depression through which Canada has been passing." These words, taken from a speech which E. W. Beatty, president of the Canadian Pacific Railway, made recently at Fredericton, N.B., will be accepted everywhere as reassuring. Mr. Beatty is in a position to speak on such matters as he has an inside knowledge of economic tendencies. There is no doubt that we are in for a hard winter, but if we can feel that it will mark the turn of the tide we can see it through with hope and confidence. The darkness is often deepest just before the dawn, and there are certainly many reasons for believing that the coming year will see Canada and the rest of the world once more on the upgrade towards normal trade and business conditions. —Toronto Mail and Empire.

The invention of a wind measuring instrument so sensitive that it will record a drop of wind pressure from eighty-five miles an hour to zero in one-hundred and twentieth of a second, is announced.

An Eskimo who had never visited civilization before saw his first movie and became insane. We think we've seen the same movie.

### Will Use Alberta Coal

To Receive Share Of Relief Coal Orders From Saskatchewan

Alberta domestic coal operators will receive a proportionate share of relief coal orders from Saskatchewan, according to C. G. Durham, secretary of the Alberta Domestic Coal Operators' Association. Alberta mines will supply one ton in four for eastern Saskatchewan, he said, receiving practically all the orders for the western part of the province. Orders, it is believed, will reach 250,000 tons.

**Persian Balm**—there is nothing like it for creating and preserving a lovely complexion. Cooling, caressing—it soothes and dispels all roughness or chafe caused by weather conditions. Delicately fragrant, it adds exquisite charm to the most finished appearance. Dainty women inevitably choose Persian Balm. A velvety smooth lotion, it makes the skin rose-leaf in texture. Recommended also to soften and whiten the hands. Truly a perfect toilet requisite for every woman.

A little boy once gave a definition of friendship: A person who knows us and still likes us. He might have added: and who lets us alone and doesn't interfere in our private affairs and doesn't come to see us too often.

A lot of folk think that being in an easy way of getting a living, but we'd like to see them try. It for a couple of weeks. We have yet to envy a beggar.

## Richness Of Mineral Fields In Great Bear Lake Area Are Stated To Exceed Cobalt

Confirmation of the phenomenal richness of the mineral fields on Great Bear Lake was given by Robert J. Jewsey, prominent Toronto mining man and prominent in the Sherritt-Gordon Corporation, who recently returned by aeroplane from the north.

Although reticent, Mr. Jewsey admitted that he had "never before seen such an abundance of mineral veins in one area in a lifetime of mining."

Mr. Jewsey, who was one of the pioneers in Cobalt, declared that owing to the entire country being composed of high ridges in which the mineral lies, mining will be comparatively simple.

"Where it cost \$80,000 to get a plant going in the Cobalt, one with four times the capacity can be set up on Great Bear Lake for \$30,000 to \$10,000."

Discussing the question of production and smelting, Mr. Jewsey expressed the view that there would be no difficulty in smelting the silver ore when it is mined. The proximity of oil at Fort Norman will greatly assist the Great Bear development, Mr. Jewsey believes.

"In all my experience in mining, and I've had plenty-years of it, never have I seen anything to compare with Great Bear," said Mr. Jewsey. "The copper veins, in I think, the largest and richest in the world. Some of the silver lodes are so rich and virgin that they can be shipped to the smelter and melted to bar silver without any refining," said Mr. Jewsey.

In the present instance Mr. Jewsey is not acting for the Sherritt-Gordon, but went into Bear Lake independently.

He proposes to do development work this winter and will send in gangs of men to Great Bear to probe the seven claims he staked on the trip.

"I should estimate," he said, "that there are close to 2,100 claims staked already and every day sees planes loaded with prospectors arriving to stake. I hope that I drew my stakes into a couple of million dollars worth of silver, but I can't tell yet," was his smiling statement. He did, however, say that Ventures, Dominion Explorers, Sherritt-Gordon, Manitoba Basin, N.A.C.E. and Consolidated Smelters and Miners had sunk a few holes and on the strength of the findings were each leaving men on the claims for development during the winter.

Questioned on the radium situation, he said: "I saw a lot of stuff which they said was radium, but whether it was worth a million or \$3 a ton I couldn't tell. I don't know radium."

"But I do know copper and silver and what I saw showed me that at Great Bear is the largest and richest run of pay-ore veins in the world. Even if the radium only pans out to a dollar a ton, millions will be made from the copper and silver. So abundant is it that it sticks out of the rock on the lake shore and extends back into the coppermine area."

According to information there are only three mining camps established so far. LaBare has one at Hunter and Echo Bay each, while the Dominion Explorers have one at Glacier Bay.

"Right now," he said, "only the large eastern mining concerns realize the untold wealth of the area. The general public does not seem to know just how heavily the land is mineralized. It will be a repetition of the affair at Cobalt in 1904 when lands there were sold for a song to the mining corporations. Great Bear will make the Cobalt field look like a piker."

"If you go into the cage again and make the lion wild, I will set the dog on you."—Munkale, Vienna.

## Lure Of The North

Many Applicants For Permission To Locate At Churchill

The lure of the north is strong in the hearts of Canadians. Anyone doubting this should see the correspondence piling in on officials of the Hudson Bay Railway and the Manitoba Government asking permission to go to the new port of Churchill, which has not been opened yet to the public. Everyone seems to want to go north. The requests come from commercial interests desiring to be early on the scene, and from the great mass of individuals that wish to grow up with the port. Many desire to go in this fall to establish a business and be ready to open their doors in the spring. Hotel applications by the dozen, clothing stores, dozens of different kinds of stores, all these are clamoring for the provincial government to let them in on the "ground floor" at Churchill.

It is learned officially, however, that Churchill will not be opened to the public until next summer at the earliest, although the laying out of the townsite is completed.

There is a considerable programme of work to be done at Churchill next summer before the port will be completed, although construction work on the elevator is finished.

## Bacon Cannot Be Frozen For Export

But Scientists Have Found Way To Overcome Difficulty

Bacon cannot be successfully frozen for export. But British scientists have proved that pork can be frozen and then melt-cured into bacon on arrival in the United Kingdom. Frozen bacon from New Zealand was defrosted at Cambridge and made into bacon. Then it was sent to a number of bacon experts for comparison with the best Danish and English sides. The experts rated it superior to Danish and only slightly inferior to the highest quality English bacon. This work is part of a scheme for research into the best methods of transporting and storing Empire meat financed by the Empire Marketing Board.

The infallible test. The chorus girl was giving notice that the company would have to dispense with her services owing to her approaching marriage. "Pretty sudden, isn't it?" growled the manager. "It was, in a way," agreed the girl. "I only met him a short time ago, and at first I wasn't sure of my feelings. But the moment I saw his Rolls-Royce yesterday I knew I loved him."

A man's temper improves the more he doesn't use it.

## National Wealth Of Canada According To Latest Estimates Is Placed At High Figure

Just Like Human Beings

Among Millions Of Men No Two Alike Says Expert

To most persons a chicken is just a chicken minus any characteristics which distinguish it from any other chicken, eating from the obvious differences in breeds. But to E. C. Foreman of Lowell, Michigan, each chicken is an individual. In fact, he says a hen has a social consciousness, a comic urge, and can be just as temperamental as the female of the human species.

For six years he was in charge of the poultry department of Michigan State College and then served as head of the poultry department for two years. Six years ago he came to Lowell and started a poultry farm.

"Every hen," according to Mr. Foreman, "has just as many characteristics as a human being. Among all the millions of hens in the world no two are alike."

"Chickens," he continues, "fall into three classifications. Out of every hundred approximately 10 are superlatively mediocre and 30 are culled. That, I think, is about the same percentage as among human beings. The 10 per cent. has beauty and character and intelligence. It is keen and alert and aggressive."

## Manitoba Community Farm

Plans For Providing Employment For 1,000 Persons Are Under Way

Plans for a community farm employing eventually 1,000 persons were advanced in Winnipeg when it was announced that a five-year lease of the 2,000-acre Manitoba Government Farm, 76 miles northeast of Winnipeg, would likely be granted.

The Imperial Immigration League of Manitoba, negotiating with the Provincial Government for the lease, purposes to convert the farm into a self-sustaining community where married men and their families will have the opportunity of making a living. Fifty families, preferably from Winnipeg, will be given immediate employment there. The scheme is designed to relieve unemployment and the city council will be requested to co-operate by allowing \$350 to each man.

Aeroplane passenger service will be established in China from Shanghai to the Siberian border, where it will connect with a Soviet service to Europe.

## Grashoppers Roost Just Like Chickens

Habits Observed By Specialists Of Michigan State College

Grashoppers go to roost at night just like chickens, Michigan State College specialists have observed in their study of ways and means of combating this farm pest.

Shortly before sundown each day the hoppers may be seen hopping toward their favourite roosting places. W. C. Cribbs, district extension agent, reports he has reason to believe a grasshopper returns to the same roosting place each night.

He has observed that when they enter a new field and start feeding on alfalfa or some other green crop, they first eat a border around the field. As the vegetation is consumed they work farther into the field, until finally they have destroyed every bit of green stuff—then they move on to greener pastures.

The reason for this method of feeding, Cribbs explained, is so that they may use their favourite roosting places at night. Rail and stump fences are popular roosts. They even cling to wire fences and perch on the fence posts. If a farm building is near they may cover the sides with their bodies if the pest is numerous, Cribbs said.

Grashoppers, like chickens, want a dry place to roost and sleep. Knowing that grass usually is wet in the morning with the dew, the hoppers take to the "tall places" to keep dry.

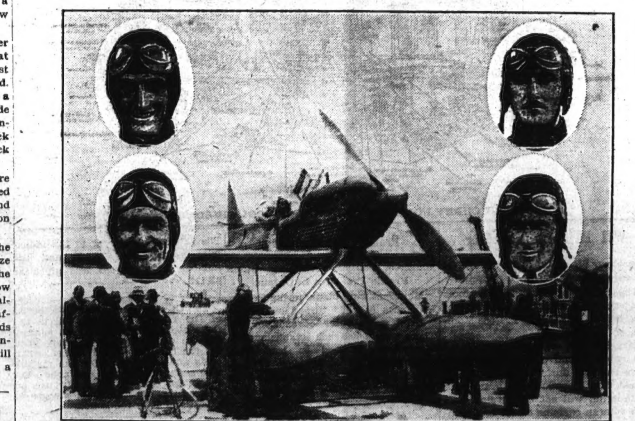

## How To Increase Clover Seed Yield

Harvest First Crop When Plants Counting To Bloom

The yield of red clover seed can be increased by cutting the first crop when the plants are coming into bloom, rather than later, according to the Ohio experiment station. Cutting the hay crop early, so as to give the second or shed crop a good chance, is the one important factor in increasing yield which is within the grower's control. Important factors beyond his control are favourable weather and plenty of sunbushes or other pollinating insects. Early cut hay is more difficult to cure and the yield is somewhat less than later cut hay, but the feeding value per ton is greater than that of more mature hay.

Lumber seems to pay best when treated as a farm crop.

## BRITISH SCHNEIDER CUP PILOTS RACE AGAINST EACH OTHER

Flight Lieutenant G. H. Stainforth set a new world's speed record of 386.1 miles an hour in a seaplane over a three-kilometer course at Calshot, England.

Great Britain also won permanent possession of the Schneider cup when Flight Lieutenant J. N. Boothman flew another seaplane 217 miles at an average speed of 340.08 miles an hour over a 31-mile course.

While Lieutenant Stainforth's speed remained to be checked and verified by the International Aeronautical Federation, it officially was announced that he had beaten by more than 38 miles an hour the previous world's speed record of 357.7 miles an hour, set by Squadron Leader A. H. Orlin, in 1923.

Lieutenant Stainforth's speed over the second of four laps was 404.25 miles an hour. This new record for the distance verified predictions that a British plane would pass the 400 mark.

With the performance of Lieut. Boothman, Great Britain took the Schneider trophy permanently, having won the two previous Schneider cup races. The cup was presented by the late Jacques Schneider, French seaplane champion. Last year it was won by a Frenchman, but the world's record, 357 miles per hour, and Flight-Lieut. Stainforth, below, left and right: Flight-Lieut. Long, and Flight-Lieut. Boothman.

The national wealth of Canada, in 1928 was, exclusive of undeveloped natural resources, approximately \$40,000,000,000, which is an increase of \$1,210,000,000 over the 1925 estimate of \$38,800,000,000, according to the Dominion Bureau of Statistics. Similar estimates placed the total for 1921 at \$22,195,000,000 and for 1925 at \$25,573,000,000 though these figures are not exactly comparable in view of certain improvements and additions that have been made in the method of estimation. In the present report is included for the first time an estimate of the wealth in harbours, aircraft and highways.

As regards the provincial distribution of wealth, Ontario ranked first with estimated aggregate wealth of \$10,628,000,000 or 26.46 per cent. of the total; Saskatchewan, with \$8,265,000,000 or 20.63 per cent.; Saskatchewan third, with \$3,947,000,000 or 9.88 per cent.; and British Columbia fourth, with \$2,644,000,000 or 6.57 per cent. of the whole. The other provinces ranked as follows: Alberta, \$2,408,000,000; Manitoba, \$1,970,000,000; Nova Scotia, \$911,000,000; New Brunswick, \$788,000,000; Prince Edward Island, \$164,000,000.

While Ontario and Quebec led in absolute wealth, the western provinces came first in per capita wealth. British Columbia held first rank with a per capita wealth of \$4,474, Alberta second, with \$3,724, and Saskatchewan third, with \$3,516. Ontario with a per capita wealth of \$3,249 was fourth, Quebec was fifth with \$3,072, and Manitoba sixth, with \$2,970.

Urban real property amounting to \$8,251,011,000 or 20.75 per cent. of the total constituted the largest item in our national wealth.

The total agricultural wealth, which in 1928 was \$8,052,521,000 declined to \$7,939,477,000 or 25.74 per cent. This amount includes the value of agricultural products for 1928—\$1,821,124,000 to cover the average stocks of agricultural goods in the possession of farmers and traders and the amount invested in preparation for the new crop.

## Result Of Wheat Test

Shows Protein Content Of Manitoba Crops Higher This Year

Dr. F. J. Birchard of the research laboratory of the Canadian Board of Grain Comptrollers, in a test made for protein content in the wheat crop of the province has a maximum of 18.3 per cent. as against a maximum of 14.5 per cent. last year and a minimum of 10.2 per cent. this year as compared with 8.4 per cent. last; the average being 12.25 per cent. against 11.5 per cent. in 1926. The test grains were taken from the same districts as last year.

## Suited Him Fine

A colored minister of a Baptist church, so runs the story, in order to strengthen and confirm the faith of his congregation, took as his text: "In those days came John the Baptist, preaching in the wilderness of Judea."

"Oh," said he, "how I like to read these precious words in the blessed Bible! You don't read anywhere about John the Presbyterian, or John the Episcopalian, No, brethren, it is John the Baptist."

Mechanical food service which was installed by a small restaurant in London has not proved popular.

"What! 15 shillings for that apple meal! Are chickens so scarce?" "No, but customers are."—Hummel, Hamburg.

## SURVEY IS MADE OF THE WEST'S NEW GRAIN PORT

Churchill, Man.—Built on the barren shore in Manitoba's north country, Churchill's ultra modern harbour development won the acclaim of an Ottawa delegation headed by Hon. R. J. Manion, Minister of Railways and Canals. Two other cabinet ministers, Hon. Robert Weir, Minister of Agriculture, and Hon. T. G. Murphy, Minister of the Interior, were in the party making a rapid-fire survey of the new grain port.

Confidence in the ability of Canada's farthest north grain harbour to handle any business which may develop via the bay route was expressed by Dr. Manion. Before leaving for the south he remarked that the mechanical portion of the port development had functioned perfectly on its initial test, leaving success of the route dependent only on the trend of trade.

Not a doubt was entertained by the minister but that the "Farnworth" and the "Warkworth," chartered by the Government to carry out the initial bay route shipment overseas this month would reach their destinations successfully. He even considered that lower bay insurance rates on hulls and cargoes might be expected for next season as a result of the two shipments of some 540,000 bushels of Saskatchewan wheat.

Canada's Government, Dr. Manion promised, would draw to the attention of the Imperial shipping committee at London any business which may develop via the Hudson Straits, in the endeavour to obtain the most equitable insurance rates possible. He stressed the fact that the government had undertaken to insure that rates on the test shipments from Churchill would not be higher than from the prairies via Montreal. Possibility that the Government might be called on to foot a bill for an extra cost by the bay route was indicated by Dr. Manion in view of current low rates on the Great Lakes due to lack of cargoes.

He pointed out that the Government had provided its harbour facilities for the trial shipments without cost, and would improve its promptness to absorb the rate differential if any. The Government is earnestly endeavouring to do everything possible at Churchill, stated Dr. Manion, pointing to plans for freight sheds, raw grain galleries and other developments for next year.

The sheds are to be constructed on the pier next summer if the foundation of the pier has settled sufficiently to allow work to be done.

By the time shipping opens on the bay next summer, the harbour will be ready to handle cattle, from the west's arid areas, the minister forecast. He mentioned that a trade might necessitate the provision of cattle yards at The Pas 51 miles southward, but saw no difficulty in the way.

Coal and lumber handling facilities, he said, would be pressed forward to handle any trade which develops and the entire facilities would certainly be ready by 1933.

"The Government will promise nothing which cannot be fulfilled," said Dr. Manion, "lest the failure to implement an undertaking might reflect to the disadvantage of the port."

"Without John I. McFarland, head of the Canadian Wheat Pools' Central Selling Agency, the trial shipments this fall would have been impossible," commented the minister. No other offer of wheat for the bay route shipment had been made, he said, and even now the second cargo has not yet been sold. Dr. Manion announced that the shipment of No. 2 northern, trimmed down Wednesday, September 16, in the hold of the "Farnworth," had been sold by Mr. McFarland to Spillers, London, England.

Perfect synchronization of the work at Churchill by the various developing groups was named by the minister as the outstanding reason for the on-the-dot success of inaugural operations. He commended especially C. D. Howe, consulting engineer of Fort William, Ont., who designed the 2,500,000-bushel elevator which has taken rank as the world's fastest operating ocean terminal.

Only 20 talking pictures were produced in Italy in the last year.

W. N. U. 1908

## Count Only Preliminary

Further Returns From Recent Census Subject To Correction

Ottawa, Ont.—A further statement of population in a number of cities and towns of Canada which were not dealt with in previous announcements, has been issued by the Dominion Bureau of Statistics. The statement covers more particularly a number of towns, although it deals also with two or three cities in different provinces.

The figures issued show that the city of Quebec, increased from 95,108 in 1921, to 129,102 in the present year. The population of Windsor, Ont., has advanced from 38,591 to 62,957 in the ten-year period.

In western Canada, the city of Regina reported an increase from 34,432 to 35,094.

The largest percentage increase recorded in the statement is in the town of Riverside, Ont., which increased its population from 1,155 in 1921 to 4,426 in the present year. This is an increase of 283 per cent.

It is made clear in the statement that the count is a preliminary one and that returns are subject to correction as additions on account of closed houses and absentees have yet to be made.

## REDUCTIONS IN NAVAL PAY TO BE RE-EXAMINED

London, Eng.—After sharp exchanges over unrest in the Atlantic fleet during a turbulent question hour, the House of Commons waded placidly through the emergency budget's proposals to increase the duties on beer and tobacco.

The Government had comfortable majorities on the two proposals—131 on the beer duties and 74 on the tobacco duties.

All the storm in the House was provoked by the brief statement of Sir Austen Chamberlain, first lord of the admiralty, to the effect the Board of Admiralty had agreed to re-examine the proposed reductions in naval pay and to consider any cases of alleged hardship. In view of this decision the vessels of the Atlantic fleet have been ordered to proceed to their home ports, he added.

Labourites immediately seized on this brief statement. There was a clamor from the opposition benches for immediate debate. The Government remained adamant. The opposition then put a motion that the House suspend the 11 o'clock closing rule, but the Government had a comfortable majority, to defeat it by 286 to 195 votes.

In an upsurge of questions from the opposition and retorts from the Government benches, the Labourites asked if the unemployed whose benefits had been cut, would also be considered. They wanted to know if the soldiers and policemen would likewise be consulted about their reductions. They remarked on the fact that some of the naval rates of pay have been cut by 25 per cent. while the first lord of the admiralty and some other cabinet

## REPRESENTS CANADA

C. A. Bowman, Editor of the Ottawa Citizen, who is one of the Canadian delegates to the fourth biennial meeting of the Institute of Pacific Relations to be held at Hangchow, China, in October.

ministers are taking a 10 per cent. cut.

Prime Minister Ramsay MacDonald replied to one of the opposition's many questions with the declaration that it had always been understood the Government departments making cuts in expenditures could adjust the burdens; a step that could be taken without materially affecting the budget estimates.

When the House returned to the emergency budget, D. G. Logan, Labourite, declared to the amusement of the House there was neither sound nor sympathy "in this damnable coalition." He challenged every member of the cabinet from the Prime Minister downwards, to do battle with him in his constituency of Scotland, Liverpool, the seat represented so long by the late "Tay Pay" O'Connor, Irish Nationalist.

## Wheat Quality Is High

Equal If Not Better Than Any Previous Year

Winnipeg, Man.—The milling and baking quality of Canada's new wheat crop is exceptionally high and is equal, if not better, than that of any year tested by the Dominion Grain Research Laboratory it was announced.

The weight per bushel of the samples received to date and which have just been examined under the direction of F. J. Birchard, are about the same as last year, with the yield of four comparing favourably. The protein content is much higher than the previous crop, while the gluten of different grades also is exceptionally good.

The baking quality is excellent, the report says, and the flour absorption is higher and the loaf volume greater.

## Superiority Of British Films

Toronto, Ont.—The increasing superiority of British motion pictures has led to the establishment in England of branch United States studios according to F. S. Royell, Canadian representative for British International pictures. "Hollywood is alarming," he commented.

## Proportional Vote Opposed

Manitoba Conservatives Object To Proposal Of Attorney-General

Winnipeg, Man.—Opposition to the principle of proportional representation contained in a suggestion by Hon. W. J. Major, Attorney-General, for a reduction in the number of seats in the Manitoba Legislature, was expressed on behalf of the Conservative party by Col. F. G. Taylor, leader of the group.

Col. Taylor said his party has no objection to the proposed reduction, but "will use every legislative means to prevent the extension of the suggested proportional representation system to the rural areas of the province."

Mr. Major's suggestion would reduce the number of seats from 55 to 35 and would apply proportional representation to the whole province with the exception of four single-member constituencies.

## Gandhi Makes Appeal

Asks British Labour Party's Support In India's Struggle

London, Eng.—Mahatma Gandhi stalked into the "Mother of Parliaments" and pleaded for the British Labour Party's support in India's struggle for independence.

He had been invited to address Labour members of the House of Commons privately regarding India's claims.

He said his case was complete independence for India, the same as that enjoyed by Great Britain. He would accept no compromise, he said. Afterward he answered the questions of various Labour members.

## Convict Taking Arts Course

University Work Sent To Youthful Long-Term In Portsmouth Prison

Kingston, Ont.—For the first time in the history of Queen's University, a convict in Portsmouth penitentiary has made application to enter in arts course and do his studies extramurally in prison. The applicant is a youthful long-term. In the past five years he has passed all Ontario departmental examinations from entrance to high school. The university work will be sent to him by the head of the extra-mural department at Queen's.

## Four Straight Records

Quebec, Que.—The Canadian Pacific liner "Empress of Britain," docking at Quebec, August 31, made its fourth straight record of the Atlantic journey, from land to land, in four days, nine hours and 23 minutes. This is the fastest time in which this stretch of water has been covered. The steamer carried nearly 1,000 passengers and 21 automobiles.

## To Cut Fire Breaks

Victoria, B.C.—Work to the extent of 14,000 man-days will be created by the definite decision of the Provincial Government to proceed with the cutting of fire breaks and patrol lanes in six forest areas of the province. Approval to proceed with this scheme as part of the relief program of the province has been received from Ottawa.

## MEASURES TAKEN FOR RELIEF WORK ARE OUTLINED

Ottawa, Ont.—A review of Canada's unemployment problem and an outline of the relief measures which are being taken by the Federal Government in co-operation with the provinces and municipalities is outlined in a statement issued by Hon. G. D. Robertson, Minister of Labour.

"Relief of the farmers in the drought stricken areas of the prairie provinces constitutes the most difficult problem in western Canada, but this ought not to be confused with unemployment arising from industrial and commercial fluctuations."

"Some substantial projects in the urban centres have been tentatively approved, and the Minister of Agriculture (Hon. Robert Weir), is actively directing the farm relief programme in those areas, particularly in Saskatchewan, as well as assisting in the relief of unemployment in the cities and towns."

"In western Canada substantial park areas in Alberta offer opportunities for the creation of considerable useful work in delimiting park boundaries, clearing and building roads and opening up avenues of communication between park areas, of which Jasper and Banff are the most prominent. Some similar works in parks located in Manitoba, Saskatchewan and British Columbia."

"The Provincial Government of Alberta has concluded an agreement with the Federal Government respecting both provincial and municipal undertakings in that province, and, like Ontario, it is expected that substantial relief will accrue to the larger urban centres by the withdrawal of transients and single men, who may be wisely assisted in the outside undertakings, both in parks and on provincial roads."

"The Province of British Columbia is suffering particularly from the contraction in the lumbering and mining industries. Field crops in that province, as in the eastern provinces, have been quite satisfactory as to volume, but not so satisfactory as to sales prices obtainable."

"Manitoba has already commenced some highway construction work and a substantial programme of municipal projects will be submitted for approval shortly."

"There are many indications that the nation-wide depression is passing and that Canada may look forward with reasonable assurance that, as in every similar previous experience, she will emerge earlier than some other countries from a new era of progress."

During the past week, however, the transportation situation seems to be improving and it may with reasonable confidence be expected that railway earnings will show better results during the next few weeks than they did in the month of August, owing to the fact that the crop movement is later this year than last year.

## Radio Development

Col. Steel Appointed To Staff Of Research Council

Ottawa, Ont.—Lieut.-Col. W. A. Steel, M.C., who has directed the radio development of the Department of National Defence, has been appointed to the staff of the National Research Council. It is announced. Starting October 1, he will have charge of the council's radio research programme.

Colonel Steel has had a distinguished career in both military and radio fields, he has represented Canada at numerous international radio conferences and he accompanied Premier R. B. Bennett to the last Imperial Conference.

Radio research has been assigned a definite place in the plan of the National Research Laboratories, and many problems of a technical nature will be dealt with under the direction of Col. Steel.

## Completing Plans For Bonus

Calgary, Alberta.—Arrangements for the payment of the five-cent Dominion Government bonus on wheat is nearing completion in Alberta. Office supplies and other equipment required in distributing the bonus have arrived at the Alberta wheat pool head office. They will be sent to pool elevators agents immediately, it was stated.

## FAMOUS AIR GIANT TO BE SCRAPPED FOR ECONOMY'S SAKE

To the millions of Canadians who had the good fortune to witness the British air monarch, R-100, in flight over Eastern Canada following her Atlantic trip a year ago, the news that she is to be scrapped as part of the Motherland's "strict economy" plan, will be accepted with great regret. It seems a pity after spending more than \$2,000,000 in her construction, that the British Air Ministry have to make such a drastic move. Above are two familiar pictures, taken in Montreal, showing the giant dirigible anchored to the airship mast at St. Hubert, and a close-up of the cat-walk by which passengers and crew board the airship.

## We Noticed on Monday:

Mine Host Larson lowering the awning at the Royal Cafe.

Henry Sinner discussing politics whilst sweeping off the bitulithia.

Mr Samson coming up from the depot with a consignment of Rainbow trout.

Fireman Turniton drawing the plans for a new firehnd.

Louise Miller cutting the corners with his recent acquisition—a Essex sedan.

Big Jo sitting in the watch-tower, waiting for customers.

Hanus Trapp motoring in to Woolworth's, to buy some to-ls.

## Merchants to Be Eliminated.

An attack on the effort of the U.F.A. to establish co-operative purchasing units has been made by A C MacKay, secretary of Retail Merchants' Ass'n. He says: "Farmers of Alberta now owe retail merchants thruout the province forty million dollars, and they are now busy organising their forces to eventually eliminate the merchant from the business fabric of the province."

## A Combined Meeting.

An unusual procedure for fixing harvest wages was recently followed in Edberg, when farmers, threshers and laborers held a meeting to draw up a schedule of wages—laborers to receive \$1.50 for ten hour day, threshing wages to be \$2.50 per day for man and team, and thresh rates to be one to 3c, barley 4c, wheat 5c.

## Schedule of Mails.

From the East—Every night except Sat.  
From West—Mon, Wed & Friday morning  
To the East—Every morning except Sunday.  
To West—Sun, Tues & Friday night.

## Stony Plain and District

Mr. Giles E. Clarke started on Tuesday at the University of Alberta.

Banker Sutton, of Onoway, was a Monday visitor here. Dr. Grebnikway, of Lethbridge, visited here Tuesday.

The Sunday School Rally Day service of the United Church will be held Sunday, Oct. 4, 7 p.m. All welcome.

The Rally held on Sunday last by Walker League members of the district was quite a success, there being a good attendance of members.

On Monday last, at the Edmonton Synagogue, the celebration was held of Yom Kippur, or the feast of the Atonement. The Comisarow family was present at the services.

Mr. Walter Samson returned Monday from a lengthy fishing trip in the streams at Jasper Park. The Rainbow trout he brought home were quite a treat to the favored ones in town. The Editor says that, when properly cooked, they are easily the equal of Potomac shad a la Marengo.

There being no baseball game here on Sunday, a party of local ball fans motored to the City to witness the big game there when the South Side defeated the Imperials 10 runs to 4.

## Before the P. M.

The only case before the magistrate on Monday was a case under the V. & H. T. Act against one Wilson. It was claimed that Wilson while being towed to Edmonton on Friday Sept. 4th, allowed his truck to swing into centre of the road with the result that it collided with a car owned by Mr. J. F. Clarke and operated by his son Giles. The defence was that the car had swerved into the truck. A lengthy battle ensued between Ronald White appearing for Wilson and G. J. Bryan, appearing for Clarke, over inference that could be drawn from the damage done to the two vehicles. After the trial had lasted till nearly 7 o'clock the magistrate decided against Wilson.

## Church Services.

Services in St. Philip's Church next Sunday, 9.30 a.m.

German Lutheran services will be held in Stony Plain next Sunday at 2.30 p.m.

United Church service every Sunday Evg. at 7.30.

There will be Gospel services every Sunday at 7.30 p.m. at Muir Lake Community Hall.

On Sunday, Oct. 18, English Lutheran services at St. Matthew Schoolhouse at 7.30 p.m., by Rev. H. Kuring.

## United Church Notes

A very successful concert and social evening was held on Friday evening last under the auspices of the Ladies' Aid. The program was a very interesting one, a special feature of which was the lecture by Capt. Gibson on "Mountain Climbing in the Rockies." Refreshments were served at the close.

Last Sunday there was a good attendance at all points. At Stony Plain the choir sang "I Heard the Voice of Jesus Say," the solo part being taken by Mr. Lorne Oatway.

## Wedding at a Spruce Grove Church.

On Sunday last, Sept. 20, at St. Matthew church (Manitoba Synod) Miss Louisa Miller was married to Mr. Jacob Miller, son of Mr. and Mrs. Ernest Miller, Spruce Grove district. The ceremony was performed by the pastor, Rev. G. Poetzsch, in the presence of a large assemblage of the friends of the contracting parties.

Following the ceremony, the bridal party and their friends motored to the home of the bridegroom's parents, where a sumptuous wedding dinner was awaiting. Festivities and dancing followed later in the evening. About 200 invited guests were present.

About 8 p.m. they were serenaded by a large party of local youths, to the captain of whom the bridegroom gave a generous douceur.

On their return from the honeymoon, the happy couple will take up their residence on Jac's farm, north of the school.

## Social Evening at the Grove.

A social evening was held Monday at the home of Mr. and Mrs. Alex Sutherland, at Spruce Grove, upon the occasion of a visit from their old friends Rev. and Mrs. Fisher of Olds. The evening was spent in pleasant conversation. Dainty refreshments were served. Among those present were: The Rev. Mrs. and Miss Fisher, of Olds; Rev. G. A. Sauder; Mr. and Mrs. Leo Piercy; Mesdames McKean, D. Brox, J. Elder, Forbes, Schlang, Caldwell, McLeod, and Miss Zimmer.

## Spruce Grove News

Contractor Clyde Hyett has been busily engaged in renovating and repairing on the hotel premises for the past week, and he and his staff are still engaged in the work.

Mr. Jac Nichols, who had contemplated moving his restaurant to the Morrow store, has been offered an inducement to stay in the old place.

Mr. Ed Linan has moved his household goods to the Morrow store.

With the arrival of the frosty days, the shipping of cream from this point has fallen off somewhat.

Capt. Gibson took part in the entertainment given on Friday night at United church at Stony Plain.

## Railway Time Table

Going East—Every morning at 6.23. Mon., Wed & Fri. morning at 7.01.

Going West—Sun, Tues., & Fri. nights at 10.31. Every mid-night at 24.13.

## The Event of the Season.

A thoroughly enjoyable day was spent by members of the Stony Plain golf club on Labor Day.

In the match between the President and Vice-Pres. the team selected by the President went out to make a day of it, and the casualties on the Vice President's side were

### Mike in the Spotlight Again.

Mike Schmigeliski, the enterprising one arm farmer of Carver district, bought a separator in Edmonton last week—at least he'd paid enough "down" money for the company to allow him start hauling it home.

Mike's partner supplied a tractor, and the pair had proceeded on their homeward trip with the outfit on Saturday night as far as the hollow on the Highway just east of the Pinchbeck farm. While coming up the west side of the hollow they couldn't make the grade, and it is said they were stalled there some two hours.

A Chevrolet coupe from Stony Plain was proceeding to Edmonton with three young men aboard about 7:40 p.m., and on attempting to pass the Schmigeliski obstruction, at what is said to have been a moderate rate of speed, the Chevrolet coupe driven by Mr. R. Secord suddenly appeared from behind the stalled separator and bumped into the Stony Plain car which was proceeding east on its right side of the road.

The Stony car suffered considerable damage and later was hauled back here by the Service Garage outfit—the three young men, had previously been motored to Stony in Mr. K. Seckler's motor car. The Secord car was able to proceed home under its own steam.

As is usual in such cases, different views as to who is responsible for the accident are held by the drivers of the two colliding cars; and it is highly probable Magistrate Williams will referee the argument when the Court sits at the town next Monday afternoon.

**For Sale or Trade for good**  
Coupe, 1 1/2 Ton Ford Truck, A1 condition; easy terms to right party. Olaf Ohlsen, Duffield.

### Domestic Animals Act— (Municipalities).

### Sale and Redemption of Impounded Animals (Sec. 48)

NOTICE is hereby given that by virtue of power granted under Sec. 48 Domestic Animals Act (Municipalities) that One Bay Mare, weight 1100, age 11 years, brand S.L. left hip, was impounded in the pound kept by Paul Clausen, located on NW 23, 51, 2-5, on Monday the 17th day August, A.D. 1931, and that the said animal was sold on the 4th day of September, 1931, to W. R. Lewis, of Stewartfield, Alta.; and that said animal may be redeemed by the owner or, on his behalf within a period of 30 days from the publication of this notice in The Alberta Gazette, upon payment of all fees and costs due to the municipality and the purchaser of said animal.

For information apply to the undersigned.  
E. H. PIDGEON,  
Sec. Treas. of the Municipality of  
Lugs No. 520  
Postoffice, Stony Plain.

many. However, they were in good hands and were well taken care of.

Some surprisingly low scores were turned in particularly by the younger members of the club, and congratulations are tendered herewith. The older members are up on their car about the young cots grabbing all the aiverware, and they are challenged herewith to produce a team from their ranks to play the Has-beens, Australian rules will govern.

The record breaking score of 58 for 2 rounds was turned in by Hy Trapp and Gus Barth. Mrs. Meyer also broke the course record for ladies, her score being 39 and 40. Other prize winners—J. McGillis and Mrs. McCull.

The ladies exalted themselves on the social end of the day, and the thanks and appreciation of the Club are given herewith for their untiring efforts.

A number of the scores in the Cup competition were not turned in. The Executive would like these turned in, so handicaps can be arranged. To the end of October the scores of 3 rounds each week will be turned in by all members wishing to enter the Cup competition, and the scores for the past two weeks should be turned in at once. A record of these scores will be kept and the one lowest score will be the winner of the Cup to be held by that member until next year, when it will again become the property of the golf club.

As intimated last week, the tie between H. Trapp and G. Barth was run off on the 13th, and the latter won.

### Sheep from the C.P.R. Farm

As a further evidence that western Canada is admirably suited to the production of livestock one need but refer to the sale of 3 purebred Suffolk rams which were bred on the C.P.R. Farm at Tilley, Alta., and sold Aug. 25, 1931, at public auction at National Wool Growers sale at Salt Lake City, Utah. This is the largest ram sale on the continent.

A 2 year old, a yearling and a ram lamb, all purebred Suffolks, and as already mentioned bred on the Company farm, were placed on the express car at Tilley and consigned to the National Sale. They traveled over 3 lines of railway and were looked after by the Express Co. on each railway. They passed thru American customs and arrived at the sale in good condition, and sold at—The 2 year old brought \$190; Yearling \$250; the Lamb \$135.

Considering that the market for range sheep is so very low in the U. S., these prices are considered to be very high. The yearling ram was the second highest priced Suffolk ram in the sale, and his selling price was only exceeded by a ram imported from England.

The C. P. R. Farm at Tilley consigned two rams to the same Sale last year when their ram lamb sold for \$80, the highest priced Suffolk ram lamb in the sale.

—J. HARRY SMITH.

## PIPES SKIRL

## NEATH SIAM'S STANDARD

With the red, white and blue barred standard of Siam fluttering above them in the sunnier, establish, pipers from all parts of Canada proudly marched and counter-marched in the grounds of the Banff Springs Hotel, Banff, Alta., during the recent Highland Gathering, which was graced by the presence of T.M. King Prajadalok and Queen Rambal Bant of Siam and their suite and a large number of distinguished guests. His Majesty, who opened the festival by raising the flag of St. Andrew, met an interesting character in the person of "White" Campbell, of New Westminster, B.C., who was a piper on the personal staff of

H. M. Queen Victoria, when King Chulalongkorn of Siam paid an official visit to her, at Osborne House, Isle of Wight, in 1894. Piper Campbell gave a special performance for King Prajadalok, at the Banff meeting. A new feature of the Gathering was a competition for representatives of pipe bands of the 17 Canadian Scottish militia regiments, which was won by Piper Hector Macdonald, of Montreal. Dancing and Highland sports rounded out an excellent program, with specially presented Scotch light opera in the evenings. The picture shows the massed pipers, parading under the Siamese flag and (inset) T. M. the King and Queen of Siam and Piper Campbell.

### United Grain Growers Ltd.

Mr. R. S. Law, President of the United Grain Growers Limited, announced at the conclusion of a meeting of the Board of Directors of the United Grain Growers Limited that a dividend of five per cent has been declared on the Capital Stock of the Company, for the financial year July 31st, 1931. Checks have been mailed to the 30,000 shareholders of the Company.

The accounts for the past year are still in the hands of the Auditors, and are not yet ready for publication, but it is intimated that the balance sheet will show a strong liquid position and that the earnings for the year, after Bon. Interest and Depreciation, were sufficient to justify the payment of a dividend.

While a reduction in grain handling during the current crop year is considered inevitable on account of the small crop produced in Western Canada, United Grain Growers elevators are fairly well located with respect to those districts in Western Canada which have from fair to good crops this year, and there are comparatively few elevators of the Company in those districts which have experienced complete crop failure.

It is also stated that a release of farmers from contracts to market grain thru other channels is resulting this year in an increased percentage of deliveries to United Grain Growers elevators at a large number of points.

United Grain Growers now have 466 country elevators in Manitoba, Saskatchewan and Alberta; a terminal elevator at Port Arthur with a capacity of 6,500,000 bu.; a terminal elevator at Vancouver with a capacity of 1,000,000 bu. One of the most important developments of the past fiscal year was the re-entrance of the Company into the business of exporting grain, which had been temporarily discontinued.

## WE WILL MAKE YOU A SPECIAL OFFER!

on your present car on a New Chevrolet Six. Call and See Us for further particulars.

The New Chevrolet Six is now breaking all sales records for 1931. A 6-Cylinder Car, 50-h.p. motor, large roomy bodies, on 180 inches of springs, hydraulic shock absorbers, Duco finish, 109-inch wheel base, 26 miles to the gallon, makes the New Chevrolet Six the most economical car to operate.
